Creating Dream Gardens

We inspire, design, build and maintain your garden

Why Invest In Garden Design?

Investing in garden design is a strategic decision that redefines the exterior of your home, unlocking new realms of outdoor living experiences. Now, more than ever, maximising the potential of your garden is essential. It enriches your daily life with enjoyment and serenity whilst serving as a prudent investment that appreciably boosts your home's market value.

A well-conceived garden design isn't an expense; it's an investment in your home's future and your quality of life. With a budget for professional design you're investing in a vision that will yield unmatched returns, both financially and emotionally.

“

From alfresco kitchens to stylish sheds, we're keener than ever in gardens. And rightly so, because a well-maintained garden can add a chunky 20 per cent to your property value – a whopping £60,000 based on the current average UK price.”

”

Why Work With A Professional Design Team?

Creating a new garden is a substantial investment that must satisfy your requirements and budget, whilst also crafting a space you love. Working with our multidisciplinary team ensures your garden benefits from diverse expertise and experience.

Our qualified Garden Designers and Landscape Architects leverage extensive training and practical experience to create stunning gardens. They apply rigorous diligence in design, material science and engineering to meet aesthetic and construction standards.

Unlike typical designs that end with a sketch, George -Stone's approach integrates CAD and construction expertise from the outset.

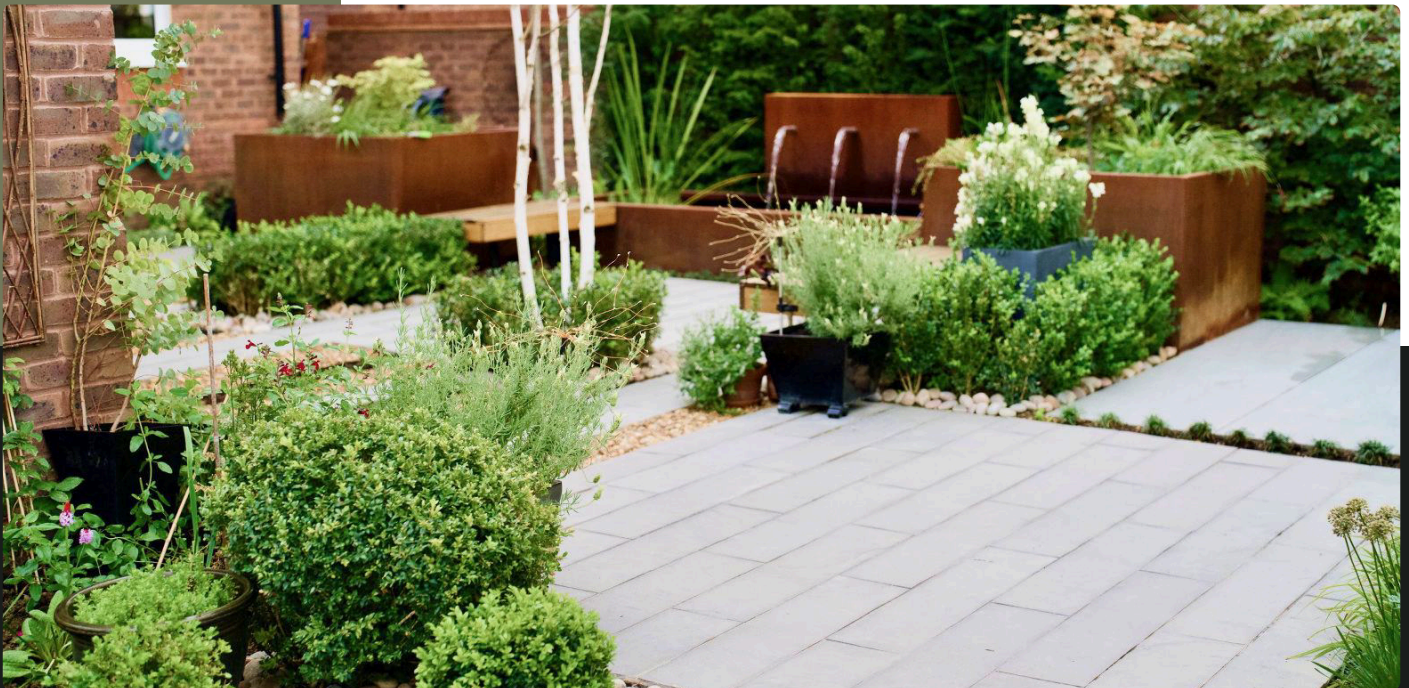

Our designers deliver comprehensive specifications and detailed plans, ensuring the final garden aligns perfectly with the envisioned design, avoiding common pitfalls of under-defined projects.

Our integrated 'Designed for Construction' method involves close collaboration from concept to completion, ensuring the landscape plan is precisely executed. Our design consultant works with suppliers and specialists for a smooth process and outstanding results, with regular updates back to you, the client.

Post-completion, if required, we offer two years of maintenance support for your garden's optimal development.

Overseen by our RHS Gold Medal-winning team, our comprehensive approach guarantees exceptional service and expertise for our clients in Gloucestershire

Meet The Team

Ian, Director

With a depth of multidisciplinary experience, Ian serves as a steadfast leader at George-Stone, guiding designers, landscaping and gardening teams with a commitment to excellence that is both innovative and respectful of tradition. His approach is firmly rooted in the company's ethos of creating gardens that people love to spend time in. His entry into the competitive world of show gardens was marked by notable success, securing an RHS Gold Medal. The garden's feature on BBC Gardeners' World highlights Ian's construction skill in creating spaces that are visually stunning and engaging.

At George-Stone, Ian maintains the highest standards of industry practice with a focused and humble dedication. His leadership is marked by a keen sensitivity to each customer's vision, ensuring that every garden project is dedicated to the satisfaction, comfort and enjoyment for its owners. Under his guidance, the team consistently delivers gardens that delight and will continue to do so for years to come.

Kirsty, Ops Director

Kirsty, Operations Director for George-Stone, provides a wealth of plant knowledge and extensive industry experience to her role in landscape services. Her passion lies in bridging the connection between people and their gardens, creating spaces that cater to entertainment, relaxation, play and personal reflection. Expert in various aspects of garden creation and management, including estimating, planning, landscaping and operations, Kirsty excels in selecting the ideal suppliers and materials tailored to each project's specific needs and budget constraints.

She adeptly oversees the garden design, landscaping and maintenance teams, ensuring top-notch service delivery to both domestic and commercial clients in the Gloucestershire area. Her commitment to excellence and client satisfaction makes her an invaluable asset in transforming outdoor spaces into cherished extensions of the home or business environment.

Laura, Principle Garden Designer

Laura's horticultural training commenced a decade ago at the Royal Gardens at Highgrove under some of the country's foremost horticulturalists. She honed her skills working on private estates throughout the Cotswolds and with the National Trust, before specialising in garden design. Under the guidance of Robin Templar-Williams at the Bristol Botanical Gardens, Laura's talents truly flourished. Meeting the stringent standards of a 5-time RHS Gold Medallist left no room for error. Laura excelled in this rigorous environment, graduating as a professional garden designer with a unique and dynamic illustrative style.

Laura's intuitive understanding of horticulture, combined with her meticulous attention to detail, results in well-considered, balanced and ecologically mindful designs. Her work is not only aesthetically captivating but also sustainable and enduring, ensuring the longevity of the spaces she creates.

Tom, Landscape Architect

Tom is a landscape architect specialising in domestic gardens. His approach is grounded in a deep understanding of both maintaining gardens and the technical and engineering disciplines of landscape architecture. The years of both practical and design experience enables Tom to effectively implement design concepts while maintaining the integrity and sustainability of each space. With years of hands-on industry experience, Tom's approach to design is both practical and innovative. His commitment to staying at the cutting edge of domestic and commercial landscaping is evident in his regular research into garden and landscape trends. This, combined with his established relationships with key planting and material suppliers, ensures that he is always in tune with the latest developments and able to incorporate innovative materials and techniques into his designs.

Liz, Design & Landscapes Consultant

Liz brings over twenty years of experience in both exterior and interior decoration, design, and project implementation. Her proficiency is particularly evident in her collaboration with Landscape Designers, Landscaping Teams and Clients, ensuring the smooth progression of projects and the achievement of a superior finish. This meticulous approach brings the designer's concept and the client's vision to fruition with exceptional finesse. Liz takes considerable pride in the work produced, deriving great satisfaction from the evolving relationships with clients as they embark on their journey with us. Her commitment to excellence and client satisfaction is a testament to her professional dedication and expertise in the field.

Gareth, Multi Award-Winning Landscapes Consultant

Gareth is a multi award-winning garden landscape professional with over 30 years experience and permanent consultant and mentor working with the George-Stone teams to achieve excellence in every aspect of landscaping. He has overseen the construction of hundreds of domestic, commercial and show gardens. Having been awarded over 30 RHS Medals in his career including 7 RHS Gold Medals and 14 Best in Show RHS Medals, Gareth's experience is second to none. Gareth is a key person of influence in key industry governing bodies; including the Chartered Institute of Horticulture (CIHort), British Association of Landscape Industries (BALI) and Garden Media Guild (GMG).

Callum, RHS Gold Medal Principle Landscaper

Callum has worked in every role in George-Stone operations and has deep knowledge and experience of what it takes to execute landscaping at the highest level. With an RHS Gold Medal for achieving, as quoted by the judges, "a near faultless construction" Callum oversees every design led project to ensure the level of quality and attention to detail meets his exacting standards.

Large projects with complex features need significant attention to detail combined with engineering expertise that can best be delivered by a design team

GEORGE-STONE **GARDENS**

"A fabulous result brought about by a fabulous team! From the planning to the realisation of the final effect, Kirsty and her team were communicative and always willing to help. It was great to see a boring area of sloping grass transformed into a multi tiered garden complete with patio and fully planted."

Jeremy English, Cheltenham

"Kirsty and her team carried out extensive, much needed work to our front and rear gardens including new patio, fencing, wall building etc. Matt, Arthur and Callum were cheerful, courteous and hard working and it was a pleasure seeing them every day. It was estimated that the work would take 5 - 6 weeks and they were spot on with completion."

Jim & Janet Attwooll, Gloucester
